Welcome to Schoolhouse K-12 Innovative Productions

Authentic by Design—Research-Driven, Experience-Built, Classroom-Ready

Thank you for exploring Schoolhouse K-12 Innovative Productions. Our resources are designed to provide educators with clear, structured, classroom-ready materials built on academic rigor, child-development insight, counseling principles, and decades of real classroom experience. Each product is intentionally developed to help teachers deliver meaningful instruction while reducing preparation time, strengthening student engagement, and maintaining strong academic expectations across diverse classrooms.

Many Schoolhouse K-12 Innovative Productions elementary resources are intentionally designed for grade bands such as Grades 3–6 or Grades 4–6. This structure is purposeful. It allows teachers to assign or adapt different components of a resource based on student readiness, instructional goals, and classroom needs. Rather than offering one-size-fits-all materials, Schoolhouse K-12 Innovative Productions resources provide structured flexibility, enabling educators to differentiate instruction, adjust rigor, and meet the needs of individual learners while maintaining coherence across the broader classroom community.

Examples of Available Resources

Schoolhouse K-12 Innovative Productions offers a growing library of instructional materials designed for real classrooms and diverse learning environments.

Cross-Curricular Instructional Systems

- Mini-PBL Cross-Curricular Units integrating Reading, Writing, and Science
- Wild Life Series Mini-PBL Library with individual units, bundles, and mega bundles
- Rainforest Project-Based Learning Units integrating ELA, STEM, and SEL
- Cross-curricular literacy units connecting informational text with science and social studies

STEM and Inquiry-Based Learning

- STEM Mini-Units featuring engineering design challenges and scientific investigation
- Data analysis, evidence-based reasoning, and applied critical-thinking tasks
- Hands-on STEM challenges designed for upper elementary classrooms

Literacy and Writing Development

- Essay Writing Series with structured scaffolding across multiple essay forms
- Reading comprehension passages with vocabulary development and writing extensions
- Academic vocabulary and context-clue development resources
- Informational text analysis and evidence-based writing activities

Social Emotional Learning Integration

- Social Emotional Learning (SEL) reflection journals and task cards
- Character education and character-traits training resources
- SEL elements embedded across many academic products
- Reflection-based writing and classroom discussion prompts

Mathematics Resources

- Grade 5 Mathematics Toolkit with printable visuals, organizers, and student workspaces
- Math reference posters and graphic organizers
- Interactive math journals and task card systems

Classroom-Ready Instructional Supports

- Full-Day Emergency Sub Plans for Grades 3–6
- Single-Class Emergency Lesson Plans for Junior High and High School
- Reading comprehension task cards for small-group instruction and literacy centers
- Print-ready classroom posters, student organizers, and instructional visuals

Creative and Integrated Learning

- Creative writing and art-infused learning activities
- Reflection-based literacy tasks and discussion prompts
- Inquiry-based learning projects

Holiday and Seasonal Resources

- Holiday and seasonal instructional units across multiple subjects
- Seasonal reading passages, writing prompts, and project-based activities

Language and Classroom Diversity

- Spanish-language instructional resources
- Bilingual and dual-language classroom materials
- Resources designed for multilingual and inclusive learning environments

Digital and Flexible Classroom Resources

- Digital learning resources for classroom, hybrid, and independent learning
- Print + digital product lines designed for flexible classroom implementation

Instructional Design Philosophy

Schoolhouse K-12 Innovative Productions resources are intentionally designed to support structured instruction, meaningful differentiation, and real classroom use. Each product integrates academic standards, evidence-based instructional strategies, and teacher-friendly organization so educators can focus on teaching rather than preparation.

Rather than providing isolated worksheets, Schoolhouse K-12 Innovative Productions resources aim to offer coherent instructional systems that combine academic rigor, cross-curricular connections, and thoughtful scaffolding to support diverse learners.

Product Value Philosophy

Every Schoolhouse K-12 Innovative Productions resource is designed to provide meaningful instructional value rather than filler activities. Our goal is to create materials that teachers can rely on for real classroom use, whether as a full lesson, a mini-unit, enrichment work, or structured independent practice.

We focus on depth, clarity, and flexibility so that teachers can adapt materials to different learning levels within the same classroom. Many resources include multiple components that allow educators to select the activities that best meet the needs of their students.

About the Educator / Author

Schoolhouse K-12 Innovative Productions resources are developed by an experienced educator with decades of classroom experience and advanced academic training in child development and counseling. This background supports the integration of academic instruction with practical classroom management and social-emotional learning.

The goal of Schoolhouse K-12 Innovative Productions is to create resources that are instructionally sound, classroom-tested, and practical for real teaching environments. Each product reflects a commitment to helping educators deliver strong lessons while supporting student growth academically and socially.
